

January 16, 2014

Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
Office of the Secretary
445 12th Street, SW
Washington, DC 20554
Reference: CC Docket No. 96-45 and CC Docket No. 02-6

Ms. Dortch:

This will serve to formally submit an FCC Appeal for a request for Primavera Technical Learning Center as it pertains to the following applicant information:

- **Billed Entity Name:** Primavera Technical Learning Center
- **Billed Entity Number:** 16028868
- **Form 471 Application Number:** 842816
- **Application Type:** Telecomm Services, priority 1
- **FRN:** 2366276
- **Service Provider:** 143033506, Bluewire dba Trucom
- **Funding Year:** 2012
- **Contact Information:** Nicole Kupser, consultant
- **Appeal Reason:** See body below
- **Appeal Explanation:** MR1: In consultation with the applicant, the service provider has been changed to Bluewire, LLC, SPIN number 143033506. <><><><><> DR1: This FRN is a request for Telecommunications Service from a service provider that is not an eligible telecommunications carrier.

Primavera Technical Learning Center's 2012 application was under PIA review and one piece of information needed was a SPIN for the FRN 2366276, which was filed as SLD Interim, SPIN 143666666 on the Form 471. At the time the application was being reviewed, the service provider still did not have a SPIN. A copy of the invoice to show the service for \$350.00 per month showed the company 'Trucom Fiber and Wireless'. On April 26, 2013 the service provider contacted me with their SPIN and stated it was under Bluewire LLC as Bluewire is the Carrier name for Trucom. (Copy of the email, Trucom April 26 is provided).

The problem with the Bluewire SPIN provided is the registration did not show dba Trucom. After contacting the service provider to add the dba as Trucom, the service provider said this would be completed on their end in order for Primavera to receive their funding. Since the plan was to add the dba, the FRN 2366276 for Primavera Technical Learning Center was updated with the Bluewire SPIN.

I was in contact with the reviewer who could not 'hold' the application as we waited for the service provider to add the dba Trucom to the SPIN so it was discussed the FRN would be denied and could later be filed as an appeal, once the provider has their information straightened out.

Please see the copy of the email string starting on August 6, 2013 asking for an update, then a forward again on September 25, 2013 after messages on the service provider's voicemail were left, and finally a response from Trucom on October 24, 2013 providing me with a SPIN under the name of Citynet Arizona, LLC. With this information I asked for confirmation the services were used through the funding year and then realized it was the same problem with the new SPIN does not link to Trucom, which is on the bills or Bluewire, SPIN originally provided.

I would like to appeal the denial of this FRN and now that the SPIN 143033506 includes dba Trucom, Primavera can receive the reimbursements on the funding which was already spent by the school. This was denied at USAC level due to the appeal being postmarked more than 60 days after the FCDL was issued. The delay in the USAC appeal was due to the fact that the service provider did not have everything in order within the 60 days allowed for an appeal and for that reason, I also asked for a waiver on the appeal deadline. The situation of losing funding is not in fault of the school, but instead due to the fact the service provider did not have their paperwork taken care of.

Please forward all questions or requests for clarification to the contact information cited below my signature line herein.

Thank you in advance for your consideration in this important matter.

Sincerely,

Nicole Kupser
